## **Portfolio Manager Commentary**

As at September 2025, the Fund performance registered a one-year return of **32.3%**, driven positive returns from equities and deposits. In the month, the equities market performance turned positive with the NSE-20 Index registering a return of **4.5%** driven by large cap stock price increases.

The Fund Manager rebalanced the portfolio by increasing allocation to fixed deposits while still adhering to the **60%** minimum allocation to equities.

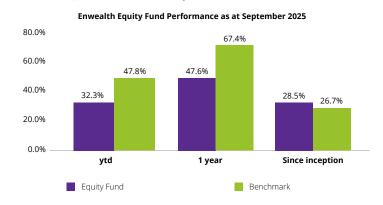

The Fund continues to invest in a portfolio of stocks with strong fundamentals. The Fixed Income portion of the portfolio is invested in short term instruments that are currently generating decent, above Treasury Bill returns.

**Outlook:** Profit-taking opportunities within the equity market space should materialize in the 4<sup>th</sup> quarter which could halt the positive return performance in the year.
